

CH-GEE Improved | Three predictor sets

Sardinia · 2019 · Random Forest (500 trees) · GEDI RH95

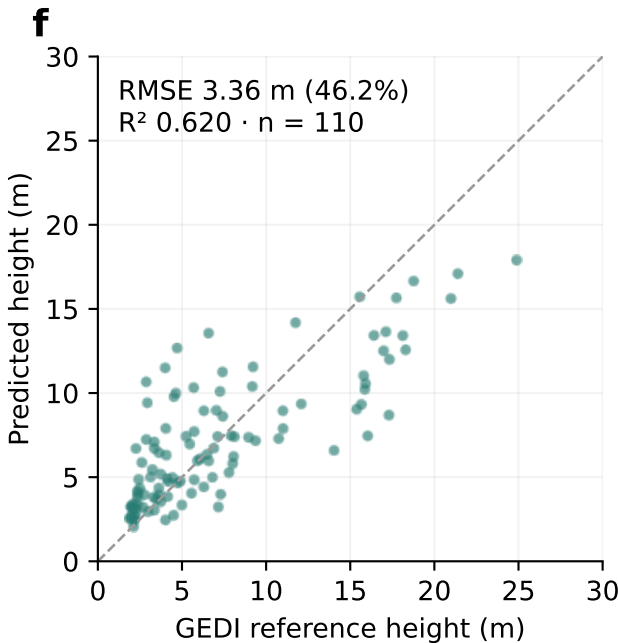

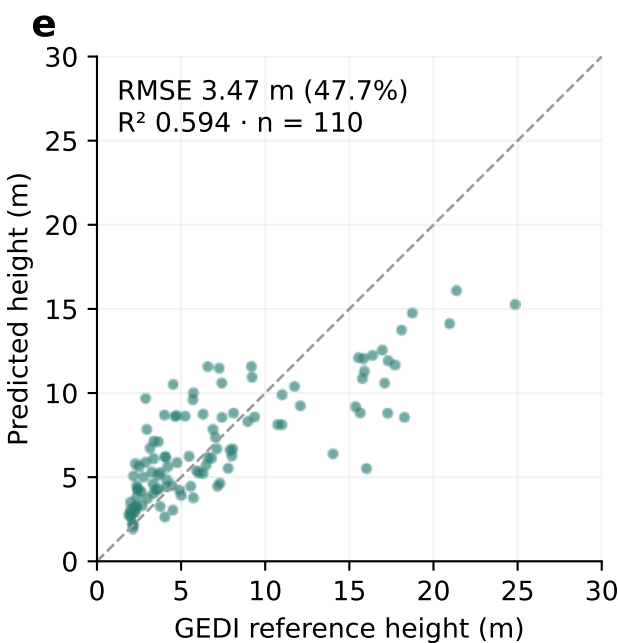

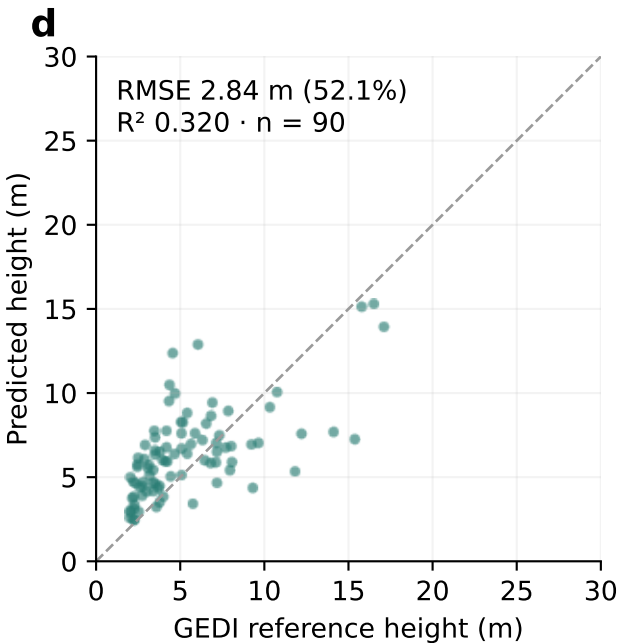

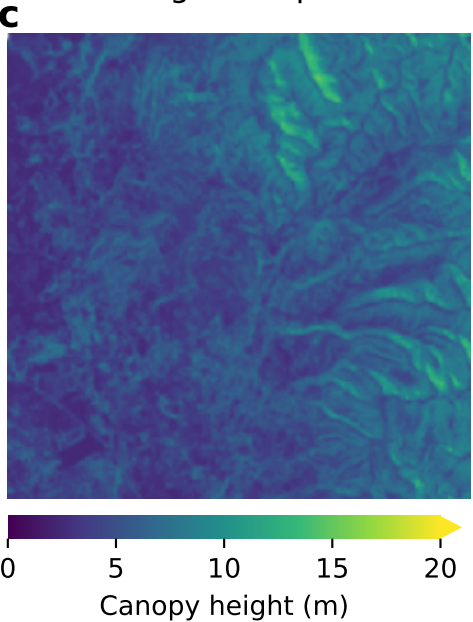

Pred 1 | Original
S1 + S2 + GMTED

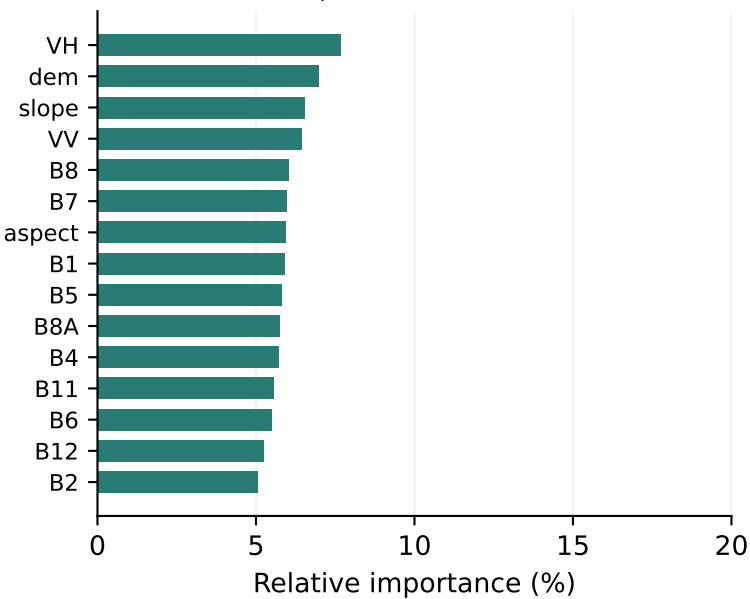

Pred 2 | Sentinel + terrain
S1 + S2 + Copernicus + XY

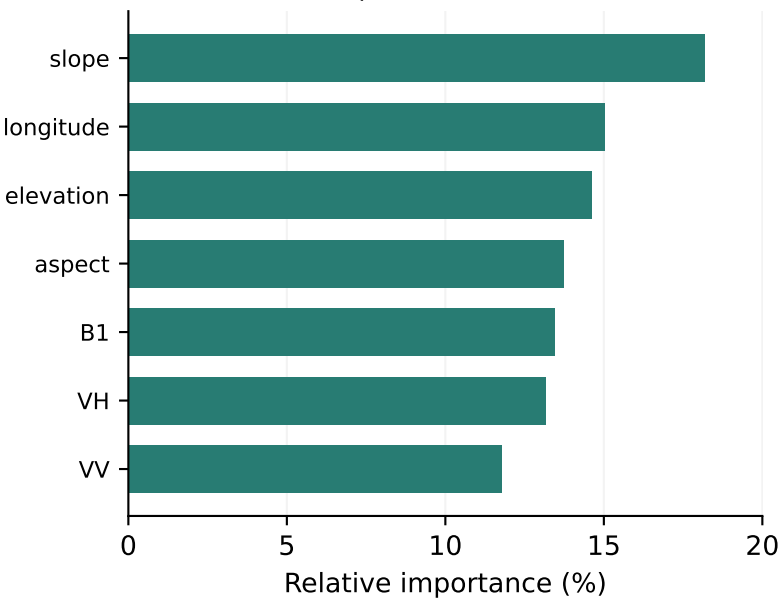

Pred 3 | AlphaEarth + terrain
64 embeddings + Copernicus + XY

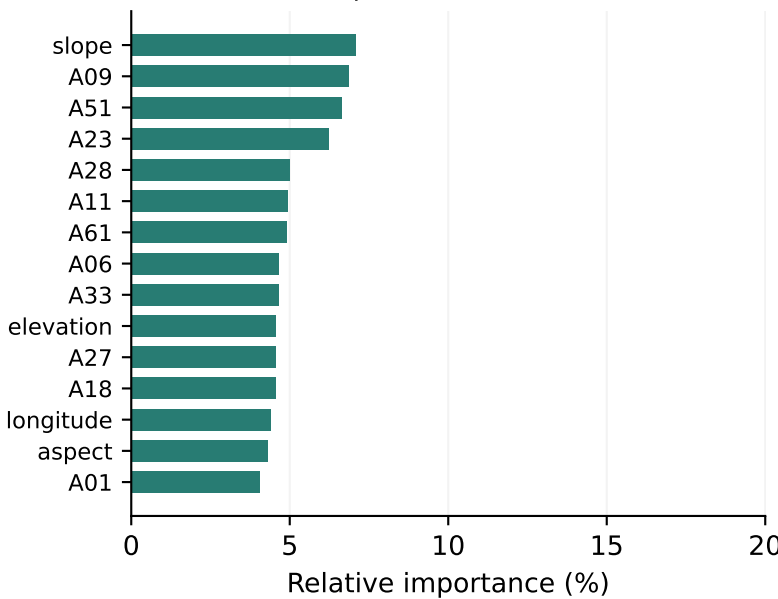

g Variable importance · 17/17 retained

h Variable importance · 7/19 retained

i Variable importance · 21/69 retained

Maps: common square extent, 6 × 6 km crop, 30 m preview, fixed 0–20 m colour range. Scatter plots: held-out GEDI over the full AOI.

Each workflow uses its own test split; this is an illustrative overview, not a common-test benchmark. Importance: top 15, normalised over all retained variables.
